

## FIRE DEFENCE – TIMBER DEFENCE

Developed and made in Australia Timber Defence is intended for use on unsealed timbers to limit their ability to ignite and become part of the fuel source of a fire.

### What's good about Timber Defence?

- Dries clear leaving natural timber finish.
- No primers or undercoats required.
- Can be stained or otherwise top coated.
- Low toxicity: less than many house-hold use approved products.
- Most cost-effective timber fire retardant available in Australia.

### Simple Application:

- Apply a liberal first coat Timber Defence.
- Apply second coat as soon as first coat has soaked in.
- 3rd coat is optional, but able to be applied when the 2nd coat has soaked in.
- When finished - let it dry - 48-72hrs.
- One litre covers approximately 4-6 sqm using 2 coats and depending on timber type and absorbency.

The product is available in 1 & 5 litre bottles, 205 litre drum and 1000 litre pallet-based IBC.

Only use on unsealed timber.

AS3959-2009 Bushfire compliant when used on pine timbers-Tested by CSIRO.
